

We welcome you to the AGROPRODMASH Exhibition.

AGROPRODMASH
October 12 -16, 2009 Moscow

AGROPRODMASH Exhibition

AGROPRODMASH is the largest fair of the Food Processing Industry in Eastern Europe. Over the 13 years that the show is held, it has experienced a considerable dynamic growth and increase in the quantity of participants and visitor-specialists. This has resulted in new thematic sections.

This year's exhibition will comprise the following sections:

- Equipment for raw materials processing
 - Equipment and technologies for food production
 - Ingredients and additives
 - Refrigeration equipment
 - Scales and measuring equipment
 - Packing equipment and materials
 - Warehouse and trade equipment
 - Industrial floor covering
 - Machinery, components and materials for the food processing industry
 - Industrial sanitation, cleaning equipment, detergents
 - Machinery for fodder
 - Environment friendly technologies in the agriculture industry
 - Leasing, credits and investments in the agriculture industry
 - Auxiliary and allied industries (mass media, software)
-
-

Special component parts show

The significant development of the market of component parts, units and materials for the food-processing industry has been observed recently. To share this with you there is a thematic exhibition organized, “AGROPRODMASH – COMPLEKT 2009” and will be held for the first time within the scope of AGROPRODMASH-2009 show.

AGROPRODMASH 2008: Features & Facts

Every year AGROPRODMASH attracts more and more specialists and in 2008 the total attendance was over 17 000. 95% of those visitors were agricultural business specialists.

Last year there have been participants from 32 countries with in total 753 exhibitors were participating.
